

FEARS OF SOCIALISTIC DISORDERS IN HOLLAND

Labor Unions Throw Down Gauntlet to Ministry.

THREATEN GENERAL STRIKE

Purpose to Tie Up Railroads Until Government Withdraws Bills Prohibiting Strikes.

THE HAGUE, Feb. 28.—There are grave fears of a serious recrudescence of the Socialist trouble in Holland. Last night a committee, consisting of the leaders of the labor unions, representing 90,000 workmen of all branches, met at Utrecht, and resolved upon the firmest possible action against the proposed bills which forbid strikes.

They determined to proclaim a general railway strike on Monday or Tuesday, until the ministers withdraw the bills. As this will never be done, the resolution, if acted upon and fully supported, therefore means approaching a revolution.

Complications Feared.

The significance of the strike will probably answer by the proclamation of martial law, as it has already indicated that it will firmly maintain its order. All measures have been taken to preserve the troops from socialist infection, and anyone distributing revolutionary pamphlets in the barracks will be prosecuted.

Prof. Vandergoes, lecturer on socialism at the Amsterdam University, who, in addressing the meeting, advised the soldiers to "shoot in the right direction," is to be prosecuted, as well as the Socialist paper, "Volks," which published a secret circular addressed to the stationmasters containing rules how to act in the case of a strike.

BRAZILIAN GUNBOAT FLEET IN ACRE RIVER

Arbitration Agreement With Bolivia Broken.

The relations between Brazil and Bolivia, which were restored to a fairly friendly basis recently through an agreement to refer to The Hague for arbitration the dispute between them over the rich Acre country, have again become strained. The situation is now more critical than it was before the arbitration agreement was reached.

Under the arbitration agreement between the two countries, Bolivia was to permit Brazil to occupy part of the disputed area and to administer a government there pending the decision of The Hague court as to the proper boundaries.

Brazil's Agreement. Brazil agreed, on her part, to rescind the duties she had decreed on rubber coming from the Acre country by way of the Amazon River, the only feasible outlet, and it was arranged that the claims of the Anglo-American syndicate, which had been granted a concession by Bolivia to exploit the disputed area, should be settled by Brazil.

Authoritative information has now reached Washington by telegraph that the Brazilian government has demanded immediate possession of 32,000 square miles more of the Acre territory, and has informed Bolivia that if that government does not consent the additional area demanded will be occupied by force.

This action appears on its face to be a violation of the terms of pacific settlement.

Gunboats in Acre River. Brazil has already begun operations by sending fifteen gunboats up the Acre River, which flows through part of the region in dispute.

Acre territory consists of about 90,000 square miles. Under the agreement between Brazil and Bolivia, the territory to be occupied by Brazilian troops, pending a settlement through arbitration, was to include about 34,000 square miles. Should Brazil seize the additional territory demanded, she will have possession of 68,000 square miles, or more than two-thirds of the entire territory.

Once Conceded to Bolivia. It is asserted that the additional 32,000 square miles were conceded by Brazil, three years ago, as rightfully belonging to Bolivia, and in evidence of this the following extract from a note sent by the Brazilian minister of foreign affairs to the Bolivian government on March 14, 1900, is cited:

"The only litigious part is that comprised between the Tefe and the Cunha Gomez lines. The part extended to the south of the latter line is Bolivian, and Brazil does not question it."

UNIFORM TIME SYSTEM

ADOPTED IN SOUTH AFRICA

CAPE TOWN, March 1.—The clocks in the Orange River Colony, the Transvaal, Rhodesia, Portuguese East Africa, and the Cape Colony were advanced half an hour at midnight, thus making them correspond with the time of Natal, which is two hours ahead of Greenwich time.

Henceforth there will be uniform time throughout South Africa, with the exception of German territory.

POPE CONFINED TO BED, SUFFERING FROM COLD

ROME, Feb. 28.—The Pope is still suffering from a slight cold and was confined to his bed all day. He was visited twice by his physician.

It is expected he will be able to receive the cardinals tomorrow.

ALASKAN COMMISSION MEMBERS PREJUDICED

"Paris Temps" Says Canada Is to Be Sacrificed.

PARIS, Feb. 28.—The "Temps," in a pessimistic editorial on the Alaskan boundary commission, says:

"The American Senate ratified a modest convention, and as a condition rendering its execution difficult and almost impossible, compelled President Roosevelt to appoint prejudiced, passionate men, instead of the impartial and unprejudiced ones prescribed by the treaty. Secretary of War Root is the most judicial of the lot. He is not deliberately an imperialist, but Senator Lodge is the leader of the expansionist school, and a man of aggressive patriotism."

"Senator Turner, who represents the State of Washington, is influenced by local interests, and will do his utmost to prevent England from acquiring an inch of territory in the Northwest. Moreover, he regards Canada as a commercial and agricultural rival, and as a political enemy."

Dominion Already Alarmed.

"Certainly these commissioners will do nothing to facilitate a settlement. Ottawa is evidently of this opinion, for it is already accusing Prime Minister Laurier of duping the Dominion and preparing a triumph of Yankee diplomacy. Canadian opinion places small confidence in Lord Lansdowne's, Mr. Balfour's, or even Sir Michael Herbert's firmness, believing that England will sacrifice her colonial interests to the Republic in which Cleveland's spirit is only dormant."

The "Temps" concludes: "The preliminary embracing, compliments, and friendly professions will end either in a rupture, possibly entailing grave international complications, or an agreement at the expense of the Dominion, which will overflow with indignation against the metropolis."

SOUTH AFRICA TO HAVE BIG INDUSTRIAL SHOW

Exposition Soon to Be Opened in Cape Town.

LONDON, Feb. 28.—A banquet was given tonight to advertise "The South African, British and Colonial Industrial Exhibition." The Duke of Argyll presided. He explained that the exhibition would be opened in a few months in Cape Town for the purpose of exploiting the natural and industrial capacities of the Cape Colony, the Transvaal and Orange River colonies, and also to introduce the products of Great Britain to manufacturers in South Africa.

The exhibition is intended for the English and Colonials only, but the government is considering whether foreigners will be admitted. The Duke of Argyll said:

"We don't think that our own people have always been quite quick enough in taking advantage of their opportunities and in being first on the spot, but now we have expanded so much in South Africa that we think we ought to have the first footing there."

Subsequently, referring to American visitors to London, who are fond of telling British manufacturers of their interest, the duke asserted that the British hold 80 per cent of the trade of South Africa, and need not begrudge others capturing the remaining 20 per cent. He announced that another exhibition would be held in Johannesburg in 1905, when all nations would be invited to take part.

RECOMMENDS HANGING AS ONLY CURE FOR LADRONES

MANILA, Feb. 28.—Ex-General Tesson, Governor of Bulacan, is leading the ex-soldier volunteers and constabulary against the ladrones. He has had an engagement with the chief, Gullermo, who has been a terror in Bulacan for ten years, and succeeded in capturing him. Governor Tesson urges the execution of the captured ladron leader, declaring that this will cause ladronism to disappear.

KING LEOPOLD DESIRES TO SEE ST. LOUIS EXPOSITION

BRUSSELS, Feb. 28.—According to information from the palace, King Leopold has not yet fixed upon a date for his contemplated visit to the United States, but he will probably go there in 1904, as he desires to see the St. Louis exposition.

JOHN F. DORAN TO BE BURIED TOMORROW

The funeral of John F. Doran will take place Monday morning at 10 o'clock, from the Church of Immaculate Conception. The interment will be made in Mount Olivet Cemetery. Mr. Doran died at his home, 1205 N Street northwest, after an illness of short duration.

His birthplace was Donegal, Ireland. He was born in 1823, and emigrated to this country with his father twelve years later, landing at Philadelphia, where he learned the trade of horse-shoeing. He married twice, his first wife being Miss Anne Heath, of Fairfax county, Va., whom he married in Baltimore in 1864. He then came to Washington and shortly afterward opened an establishment of his own on K Street, between Ninth and Tenth, which he directed until ten years ago, when he retired from business.

LOCAL MENTION.

The Laundering of Family Linen

has been brought to perfection by the Potomac Laundry. Nothing of highest grade soap and filtered water being used. No caustic. You are invited to visit their new plant, 1710-16 E Street northwest, and see their work and method. You will be welcome. Drop postal or phone 2561 Main for a wagon to call. It

SIR MICHAEL HERBERT SIGNALLY HONORED

Elevation to Highest Class in Order of St. Michael and St. George Rare Distinction.

Sir Michael Herbert's elevation to the highest class in the order of St. Michael and St. George is an honor seldom conferred upon as young a member of the diplomatic corps, and is one of the most prized decorations within the gift of King Edward.

The most distinguished order of St. Michael and St. George was instituted April 27, 1818 by letters patent under the great seal of Great Britain, and enlarged and extended December 4, 1858, and May 30, 1877, for such natural-born subjects of the crown of the United Kingdom as may have held or shall hold high and confidential offices within his majesty's colonial possessions, and in reward for services to the crown in relation to the foreign affairs of the empire. It consists of not more than fifty knights grand cross, exclusive of extra and honorary members, 150 knights commanders, and 200 companions. The members of the order enjoy rank and precedence immediately after corresponding classes of the Order of the Star of India.

Insignia of Order.

The star of a knight grand cross is composed of seven rays of silver, having a small ray of gold between each of them, and over all the cross of St. George. In the center is a representation of the Archangel St. Michael, encountering Satan, within a blue circle, inscribed with the motto, "Auspiciis Mellioris Aevi."

The collar is formed alternately of lions of England, of Maltese crosses, and of the ephers S. M. and S. G., having in the center the imperial crown, over two

winged lions, standing guard, each holding a book and seven arrows. At the opposite end of the collar are two similar lions. The whole is of gold, except the crosses, which are of white enamel, and it is linked together by small gold chains.

The badge is a gold cross with fourteen points of white enamel, edged with gold, having in the center on one side the Archangel St. Michael, encountering Satan, and on the other, St. George on horseback, encountering a dragon within a blue circle, in which the motto of the order is inscribed. The cross is surmounted by the imperial crown, and is worn by the knights grand cross and cross to the collar, or to a wide Saxon blue ribbon, with a scarlet stripe from the right shoulder to the left side.

The Gorgeous Mantle.

The mantle is of Saxon blue satin, lined with scarlet silk, tied with cordons of blue and scarlet silk and gold, and has on the left side the star of a knight grand cross. The chapeau is of blue satin, lined with scarlet, and surmounted with white and black ostrich feathers.

The knights commanders wear the badge suspended to a narrower ribbon from the neck, and have on their left side the star composed of four rays, with a small cross with eight points in silhouette, surmounted by the cross of St. George, and having the same center as the star of the grand crosses. The companions wear the small cross of the order from a still narrower ribbon at the buttonhole of their coats.

PANAMA COMPANY MAY EXTEND CANAL OPTION

Officials Non-Committal, But Are Believed Ready to Act.

PARIS, Feb. 28.—Panama Canal authorities refuse to say whether they will consent to an extension of the option to the United States, in the event of its expiring March 4, but there is good ground for the belief that the option will be extended should the pending treaty fail in the United States Senate.

FRANCE RESUMES DIPLOMATIC RELATIONS WITH VENEZUELA

CARACAS, Feb. 28.—There was much rejoicing here today over the retreat of the revolutionists under General Roldano from Guaranas.

M. Wiener, the new French minister, presented his credentials to President Castro at the Yellow House today. Delegates from all classes were present to witness the ceremony, which marked the resumption of diplomatic relations broken off in 1895. The presidential residence was too small to hold the throng who desired to hear the speeches.

President Castro, replying to M. Wiener's address, favored close relations with the French republic and the United States.

GERMAN CANAL PROJECT FAVORED IN REICHTAG

BERLIN, Feb. 28.—In the course of a discussion in the Reichstag today Minister of Railways Bilde had an opportunity of declaring that the government is more convinced than ever of the necessity of building a canal from Dortmund to the Rhine, through the Ems Valley. This is a section of the great Rhine-Weser-Elbe Canal scheme.

NETHERLANDS RETURNS AMERICA'S COMPLIMENT

President Roosevelt to Name Umpire in Venezuelan Claims.

A protocol for the settlement of the claim of Holland against Venezuela was signed today by Baron Gevers, the minister of the Netherlands, and Mr. Brown, the Venezuelan envoy.

In reciprocation of the compliment paid Holland by the United States in the selection of Queen Wilhelmina, who is to name the umpire in the event of a dispute between the commissioners appointed by the United States and Venezuela to pass upon American claims, the Netherlands protocol provides that President Roosevelt shall name the umpire if there is a dispute between the commissioners appointed to adjust claims against Venezuela.

Thousands Have Kidney Trouble And Do Not Even Suspect It.

Do Not Neglect Your Kidneys, Because if Kidney Trouble is Permitted to Continue, Fatal Results Are Sure to Follow.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

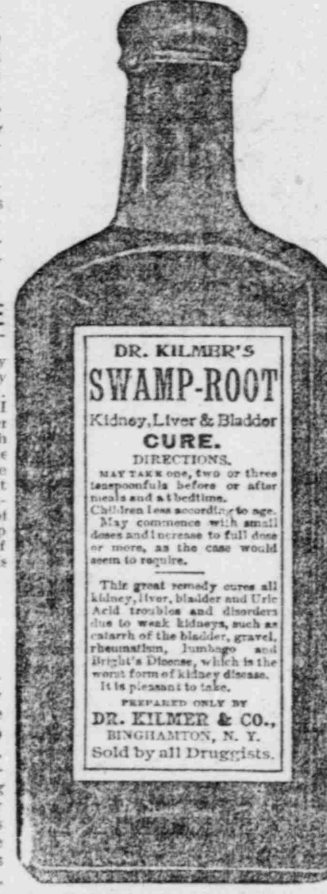

DID NOT KNOW I HAD KIDNEY TROUBLE

Gentlemen: "About 18 months ago I was extremely lame, for three weeks, and when I was able to leave my bed I was left with excruciating pains in my back. My water at times looked very much like coffee. I could not sit at a time, and then only after suffering great pain. My physical condition was such that I had no strength and was all run down. The doctors said my kidneys were not affected, and while I did not know I had kidney trouble, I somehow felt certain that my kidneys were the cause of my trouble. I purchased a bottle of Swamp-Root and inside of three days commenced to get relief. I followed up that bottle with another, and at the completion of the one found I was completely cured. My cure is very gratifying to me."

Mrs. H. N. Wheeler.

117 High Rock St., Lynn, Mass.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, and if permitted to continue much suffering with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless, and irritable; makes you pass water often during the day, and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints or muscles; makes your head and back ache, causes indigestion, stomach and liver trouble, you get a sallow, yellow complexion,

makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away. The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

FIND OUT IF YOU NEED SWAMP-ROOT

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, or if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

SWAMP-ROOT IS PURELY VEGETABLE

Dear Sirs: I had been suffering severely from kidney trouble. All symptoms were on hand; my former strength and power had left me; I could hardly drag myself along. From my mental capacity was giving out, and often I wished to die. It was then I saw an advertisement of yours in a New York paper, but would not have paid attention to it, had it not promised a sworn guarantee with every bottle of your medicine, asserting that your Swamp-Root is purely vegetable and does not contain any harmful drugs. I am seventy years and four months old, and with a good conscience I can recommend Swamp-Root to all sufferers from kidney trouble. Four members of my family have been using Swamp-Root for four different kidney diseases, with the same good results.

With many thanks to you, I remain,

Very truly yours, ROBERT BERNER.

No matter how many doctors you may have tried—no matter how much money you may have spent on other medicines, you really owe it to yourself to at least give Swamp-Root a trial. Its staunchest friends today are those who have all given up hope of ever becoming well again.

mortally wounded, displayed remarkable fortitude.

In the hope of extending his life a physician offered him whisky. He refused, saying he had been an abstemious all his life, and did not care to begin drinking in the face of death.

"Go look after the women and children," he said. "You can't do anything for me, because I am going to die."

A relief train brought to this city the bodies of Engineer Bibb, who was scalded to death, and Postal Clerk Joseph H. Tucker, whose skull was crushed.

The baggage and express cars were burned, together with most of the mail. The landslide was caused by the heavy rain.

CHATTANOOGA, Tenn., Feb. 28.—A

wrecking train, with physicians and railroad officials, left this city immediately after the wreck was reported, and the track was cleared by noon today.

It is stated that the wreck was caused by two landslides. In the first, it is thought, a big boulder was washed down the side of a bluff and fell upon the track. These landslides spread the track, and when the locomotive struck the boulder it was thrown from the ties and down the embankment. Several coaches followed.

The scene of the wreck is between Loudon and Lenoir City, Tenn., where the railroad parallels the Tennessee River for a considerable distance. The construction of the road at this point was very difficult, and it is a bad place for a wreck.

KING'S PALACE DEPARTMENT STORES

A Manufacturer's Sale of New Spring Suits.

An item of such import as to offset our clearance determinations. Spring suits—worth \$12.50, \$15, and \$18... \$9.95

A manufacturer of great standing discovered that he needed cash at present more than he did his line of Spring Suits. He telephoned us to this effect (knowing that we had the largest outlet in Washington), and immediately our buyer left for New York. The value appealed so strongly to his good judgment that he determined to purchase the entire line and ship them immediately; knowing that at such a remarkable price they would not remain long enough in our establishment to feel the effects of the dust and dirt.

The styles are the latest creations in blouse, tunic, and "Norfolk" effects. The clothes are fine quality all-wool Venetians, broadcloths, chevrot sergees, and novelty fabrics; in blacks, blues, tans, castors, browns, and grays. Some are the new collarless styles, with and without capes; some handsomely trimmed in braid, satin, and taffeta effects; some plain tailored and stitched. They are all made with the new pleated puff sleeves; some possessing backs and some plain skirt styles.

The Skirts are all cut in the latest effects, some plain and some trimmed; some box pleat bottoms, with or without drop skirts. All sizes from 32 to 42. Skirt lengths from 41 to 46. As this is a special purchase, and the lots are somewhat broken, there are not all sizes in every style, but all sizes in some style. It is impossible to describe the loveliness of the garments; they must be seen to be appreciated—the sooner you call the better your selection.

Remember, Suits worth \$12.50, \$15, and \$18, special, \$9.95.
